LOG OF MEETING

97 JUN 16

SUBJECT: Multi-Purpose Lighters**DATE OF MEETING: May 8, 1997****DATE OF LOG ENTRY: June 16, 1997****PERSON SUBMITTING LOG: Barbara Jacobson****LOCATION: J.W. Marriott Hotel, Washington, DC 20004**

CPSC ATTENDEE(S): Ronald Medford, Assistant Executive Director, Office of Hazard Identification and Reduction, and Barbara Jacobson, Directorate for Epidemiology and Health Sciences

NON-CPSC ATTENDEE(S):

Michael Forys, Scripto-Tokai Corporation

SUMMARY OF MEETING:

The closed meeting was requested by Ron Medford to ask Mr. Forys whether Scripto-Tokai has plans for developing a child-resistant mechanism for a multi-purpose lighter. We had a general discussion about the possible need for child-resistant mechanisms that would allow for multiple operation attempts before resetting. Multiple operation attempts may be needed because the piezo electric mechanism used for multi-purpose lighters does not produce a flame each time the lighters are operated.
